Academic Year Handbook

ISTANBUL MEDIPOL UNIVERSITY
INTERNATIONAL SCHOOL OF MEDICINE
2019-2020 ACADEMIC YEAR
EDUCATION HANDBOOK

I am delighted to offer our faculty members and students this education handbook for the 2019-2020 academic year of Istanbul Medipol University International School of Medicine.

This handbook includes the detailed information on Academic Organization, Academic Calendar and Course Committees of our International School of Medicine, and the details of course committee and clerkship crediting, examination patterns and pass criteria.

I extend my thanks to members of the Medical Education Handbook Development Committee and Prof. Bahar GÜNTEKİN, Head of the Committee, for their contribution to the development of this handbook.

ISTANBUL MEDIPOL UNIVERSITY
INTERNATIONAL SCHOOL OF MEDICINE
EDUCATION AND EXAMINATION REGULATIONS

SECTION 1

The Goal, Scope, Basis and Definitions

The Goal

ARTICLE 1: (1) The goal of this regulation is to determine the features of education, teaching, and exams at the International School of Medicine.

The Scope

ARTICLE 2: (1) This regulation contains the relevant rules regarding organization of the medical education to become a medical doctor; evaluation of the education, and other features of the educational studies to obtain the medical doctorate diploma and titles.

The Basis

ARTICLE 3 -(1) These regulations are developed based on "Istanbul Medipol University Associate and Undergraduate Education Regulations" becoming effective upon publication in the Turkish Republic Official Gazette No. 28387 dated 08.17.2012 and "Regulations on the Identification of Minimum Educational Requirements for Education Programs in Medicine, Nursing, Midwifery, Dentistry, Veterinary Medicine, Pharmacy and Architecture" published in the Turkish Republic Official Gazette No. 26775 dated February 2, 2008.

The Definitions

ARTICLE 4 - (1) For the purposes of these regulations, the following terms shall have the following meanings;

a) Weighted Grade Point: The score which is obtained through the grades from course committees, non-committee courses or clerkship programs multiplied by "ECTS" (European Credit Transfer System) value of related course committees, non-committee courses or clerkship programs.

b) Head of The Coordinators: The faculty member who is responsible for execution and coordination of the education and teaching.

c) Advisor: The faculty member, who deals with educational and other problems incurred by students, suggested by the head of the coordinators and assigned by the Faculty Executive Committee.

ç) Average of weighted Grade points of Course Committees: The score achieved from practical and theoretical mid-term examinations held at the end of each course committee during years 1, 2 and 3.

- d) Course Committee:** Course committees in which a particular and relevant biological system is studied by various disciplines in a specific time frame during years 1, 2 and 3,
- e) The head of the course committee:** The faculty member who is proposed by the all faculty members of a course committee and assigned by the dean (please refer to item ö for further info)
- f) Course Committee Grade Point:** The score attained by the student at the end of each and every course committees. It is considered to be an interim exam and includes theoretical and practice exams.
- g) Diagnostic exam:** It is a pretest. It is the exam which is held at the beginning of a course committee or clerkship to understand the level of the knowledge.
- ğ) Term:** One educational semester including the time frame of minimum sixteen weeks,
- h) Term coordinator:** The faculty member who supervises, executes and coordinates the education with course committee coordinators and clerkship coordinators. He / She is assigned by the school dean.
- ı) Integrated System:** An education model discussing correlated biological systems in various courses of the same course committee during years 1, 2 and 3,
- ı) Formative exam.** The interim exam or general exam to measure the education level during a course committee or clerkship exam.
- j) CGPA (Cumulative Grade Point Average-GANO):** The score obtained through the sum of the credit-weighted grade points for courses completed by the student since the beginning of the 1st semester of the school, divided by total ECTS value of these courses,
- k) General Examination:** The examination held during the semester of or by the end of the year of course completion; the Course Committee General Examination refers to the year-end examination that includes the subjects of course committees studied throughout the year during years 1, 2 and 3, and general clerkship exam reefer to the exam at the end of each clerkship and covers the topics from the specified clerkship.
- l) Internship:** A twelve-month education process that includes clinical, polyclinical and necessary laboratory practices during year 6,
- m) Elective courses.** The courses which are not part of the annual course committees or clerkships however are necessary for graduation to satisfy the total course credits. They are selected by the student and concurred by the advisor. The goal of these electives is to enrich the education to improve the general culture and knowledge.
- n) Theoretical exams:** The exam two measure of the knowledge at different level. They are done written or electronic.
- o) Course Committee Pass Grade:** The score obtained by the sum of 60% of course committee grade point average and 40% of course committee general examination grade,

ö) The head of the course committee is responsible for coordination and implementation of each course committee and committee exams in the 1st, 2nd and 3rd year (term). He helps to the term coordinator (see item h).

p) The commission for curriculum development before graduating Medical School. This unit is responsible for development and improvement of the medical education

r) Common mandatory courses. These are the mandatory courses other than the course committees and they are defined on the regulation # 2547/5 (1)

s) The commission for measurement and evaluation. This unit is responsible for determination, implementation, supervision and control of measurement methods, exam types and exam tools, development of statistical analysis of the exam questions.

ş) The commission for program evaluation. The unit which evaluates the medical education by preparing and implementing surveys for students and faculty members. They report to the commissions of Curriculum development and measurement and evaluation.

t) Annual weighted average grade points (SANO): The score obtained through the sum of the credit-weighted grade points for courses completed by the student at the end of the previous year, divided by total ECTS value of these courses,

u) Clerkship: An instructive education program carried out practically (on an applied basis) and theoretically at those Departments correlated with Clinical Sciences during years 4 and 5.

ü) Clerkship coordinator. The coordinator of the education and exam for a clerkship during 4th and 5th year of the medical education. They are selected by the relevant department of the clerkship.

v) Summative exam. The exams at the end of each course committee or clerkship are this type of exams and consists of theoretical and practice exams. The goal of this exam is to determine if the goals of the education are met.

y) Practice exams. These exams are intended to measure the attitudes and skills rather than the knowledge.

These are the following exams:

- 1- Objective clinical exams
- 2- Objective structured exams
- 3- Bedside knowledge exams
- 4- Bedside skills exams
- 5- Case based evaluation exams
- 6- Professional manner and behavior exams

z) Objective structured exams are the exams where the answers are predetermined and graded

SECTION 2

The Education Programs

Education and Teaching

ARTICLE 5 - (1) At the International School of Medicine, the period of education is six years excluding the preparatory class.

(2) Medical education shall be carried out based on course committees during years 1, 2 and 3, clerkship during years 4 and 5 and internship during year 6. In addition, there are non-committee and elective courses.

(3) Clerkship and internship programs during years 4 and 5 shall be carried out at the University hospital. However, external education programs shall take place upon the resolution of Faculty Executive Committee.

(4) Vocational Skill and Scientific Research Projects Committee: It is a small working group course assessed apart from group courses where first-, second- and third-year students are engaged in practical applications at various departmental laboratories in the company of the concerned faculty member and prepare at least one presentation in the form of poster or oral presentation or panel discussion under the surveillance of an advising faculty member by employing methods of access to information, use of information and assessment in any subject of their interest or assuming a role in laboratory project, with the intent to develop their vocational skills.

(5) Non-committee courses and elective courses shall be provided based on passing a course. The pass grade is 60 out of 100. For graduation from the School of Medicine, students must pass these courses.

(6) Education shall be carried out based on passing an academic year during years 1, 2 and 3 and passing a clerkship program during years 4 and 5. Therefore, the student shall repeat the courses failed during years 1, 2 and 3, and clerkship program(s) failed during years 4 and 5.

(7) The students, who intend to enroll at another domestic or foreign institution for the purposes of National and International Student Exchange Programs, may be dispatched to educational institutions whose education equivalency is deemed appropriate by the relevant term coordinators offered and approved by the Faculty Executive Committee.

(8) Fourth- and fifth-year students, who intend to undergo clerkship at another institution for the purposes of National and International Student Exchange Programs, may be dispatched to educational institutions whose education equivalency is deemed appropriate by the Faculty Executive Committee. Upon the resolution of Faculty Executive Committee, students may be held exempt from clerkship programs completed at another institution by any means.

The language for education and Teaching

ARTICLE 6- (1) The education and teaching is English at The International School of Medicine including all exams, homework and the learning resources. The only exception is the Turkish language used for patient contacts in the clinical years.

Compulsory English Preparatory Class.

ARTICLE 7-(1) The preparatory class is mandatory and may be as long as 2 years if necessary. The unsuccessful students at the end of this term is subjected to the relevant university regulations. The considerations for placement tests, immersion programs and English preparatory classes shall be governed by the provisions of "Regulation on Foreign Language Education and Conduct of Education in Foreign Language at Higher Education Institutions" and "Istanbul Medipol University English Preparatory Class Education Regulations".

Turkish Language education

ARTICLE 8-(1). The students who does not have Turkish language skills will have to show a proof of Turkish language skills in order to communicate with patients and relatives during the clerkship years. The length of this Turkish education preparation is same as the English preparation.

SECTION 3

Coordinators, Commissions, course committees and Clerkships

Head Coordinator

ARTICLE 9 – (1) A Head Coordinator shall be commissioned by the Dean among academic members of the International School of Medicine and assigned for a 4 year term. The Head Coordinator shall ensure and inspect the conduct of whole education in accordance with the faculty purposes and learning objectives. The head coordinator may have 2 assistants to head coordinator.

Assistant Head Coordinator

ARTICLE 10 – (1) An Assistant Head Coordinator shall be commissioned among academic members of the International School of Medicine at the proposal of the Head Coordinator and with the consent of the Dean. If the head coordinator steps down for this duty, the assistants are automatically step down of this job.

Roles of the Assistant Head Coordinator

ARTICLE 11 - (1) The assistant head coordinator shall; **a)** Together with the head coordinator and other coordinators, provide that programs shall be developed and conducted in line with integration,

- b) Together with coordinators and heads of course committees, oversee the conduct of related course committees in unity and harmony, and
- c) Develop examination assignments and ensure a smooth coordination of examinations.

Coordinators

ARTICLE 12 – (1) Each class shall have a coordinator and an assistant coordinator. Coordinators shall be assigned to each class by the Dean among academic members of the International School of Medicine. Coordinators shall nominate an assistant for themselves among academic members of the International School of Medicine.

Roles of Coordinators

ARTICLE 13 - (1) Coordinators shall;

- a) Implement the academic calendar for the class of which they are in charge,
- b) Ensure integrity and proper coordination of the faculty members of a particular course committee and schedule of any class of which they are in charge,
- c) Inform the Coordinators Committee, assessing feedbacks from faculty members and students at the end of each course committee,
- d) Ensure the performance of clerkship examinations, remedial examinations, general examinations and make-up examinations in cooperation with Heads of Course Committees for developing the same,
- e) Be responsible for transformation of question banks and incorrect questions,
- f) Ensure that examination results are calculated and described, and
- g) Help students solve problems at any class of which they are in charge.

Coordinators Committee

ARTICLE 14 – (1) The committee shall be comprised of the Dean, Head Coordinator, Assistant Head Coordinator, and Coordinator and Assistant Coordinator responsible for each class. This committee is liable for providing general planning and coordination of education programs and examinations in line with the opinion of departments during every academic year.

Roles of the Committee

ARTICLE 15 - (1) The committee shall;

- a) Convene at the beginning of each academic year,
- b) Ensure that the entire education across the school shall be carried out properly and concertedly based on the academic calendar, and keep the Faculty Committee informed of this subject,
- c) Schedule the academic calendar of the next school year during the second semester and submit this calendar to the Faculty Committee,

- d) Review student examination results, identify the causes of achievement or failure, and report them to the Dean's Office, if necessary,
- e) Perform academic year assessments within one month from the end of that academic year and deliver results to the Dean's Office,
- f) Submit the proposal for schedule modification for the approval of Dean's Office to avoid setbacks in education under inevitable circumstances,
- g) Present the Dean's Office opinion and suggestion on necessary modifications and educational tools for enhancing educational quality and on the infrastructure of these modifications and tools,
- ğ) Send the Dean's Office the details of any students who are about to be dismissed for absenteeism or any other reasons
- h) Process the transfer students and students coming abroad for their credit transfers amendments and settlement.
- I) Recommend every student registered at the faculty an advisor for help with any educational considerations. The committee shall monitor and review student advisory services and prepare a report on this subject.
- i) Conducts studies to improve the education and teaching in the school, coordinates relations with departments
- j) Determines course topics together with departments and ensures that the topics and content of the programs is compatible with National Core curriculum program. Keeps track of the education topics to the Medipol intranet (MEBIS)

Commissions

The commission for curriculum development before graduating Medical School.

ARTICLE 16-(1) In accordance with the vision and mission of the International School of Medicine, this unit is responsible for development and improvement of the medical education. The establishment and its roles are determined by the faculty executive committee.

The commission for measurement and evaluation.

ARTICLE 17- (1) This unit is responsible for determination, implementation, supervision and control of measurement methods, exam types and exam tools, development of statistical analysis of the exam questions. The establishment and its roles are determined by the faculty executive committee.

The commission for program evaluation.

ARTICLE 18- (1) The unit which evaluates the medical education by preparing and implementing surveys for students and faculty members. They report to the commissions of Curriculum development and

measurement and evaluation. The establishment and its roles are determined by the faculty executive committee.

SECTION 4

Undergraduate Transfers and Course Exemption

ARTICLE 19 – (1) The Faculty Executive Committee shall determine and announce the number of students allowed admission through undergraduate transfers and the period of such transfers.

(2) The status of students, who apply for an undergraduate transfer from abroad or study in Turkey under the Foreign Student Admission Quota, shall be set by the Faculty Executive Committee within the scope of the Turkish Council of Higher Education legislation.

(3) The students enrolling at the Faculty from any other graduate program are not allowed to claim exemption from committee courses. The Faculty Executive Committee shall decide which courses the student shall be held exempt from and which courses the student shall retake from the previous year.

Renewal of Registration

ARTICLE 20- (1). The student registrations are subjected to renewal at the beginning of every academic year. The courses for the following year are determined during the time of registration renewal and selection process is done during this time. The students can modify the courses by adding or removing the courses as they wish. In case of an excuse causing a potential delay in registration renewal, can be authorized until the deadline of course selection. The status of students who did not renew the registration office after 2 consecutive years is determined by the executive committee. If a student does not complete the course selection within the dedicated time he is considered to be given up the education for that year. Thus he is not allowed to take the courses and exams. If he has taken an exam, it is considered to be invalid.

Compulsory Attendance

ARTICLE 21 - (1) The attendance at courses, laboratory studies and applied studies is compulsory. Any student who fails to attend over 30% of theoretical courses and over 20% of applied courses shall not be allowed to take the general examination of that course, if the student is found by the course instructor to have exceeded the limit of absenteeism. The attendance at clerkship and internship programs during years 4 and 5 is compulsory since such programs are considered applied studies.

Freezing the registration and to take time off situations

ARTICLE 22-(1) In the presence of valid reasons and upon the petition of the student or his family members, a student can be allowed to take time off up to two years. The inquiries of the students are evaluated by the faculty executive committee and the result is reported to university president's office. For the students in the preparation year an opinion is taken from the student teachers. A student can be permitted to take time off maximum of two semesters at once and maximum of four semesters during the entire course of the program.

(2) The time when the student is out of the school based on the faculty permission, is considered to be out of the education. The applications to take time off other than the health reasons and urgent reasons, should be applied before the last day of the course selection time at the beginning of the academic year or semester. The students who are taken into custody or incarceration, are is considered to be excused until the date that they are released from custody or they are freed from the incarceration. The student pays the entire amount of the tuition during that time.

(3) The students who need to go to Military service are considered to be legally excused until they have completed the military service. Once they completed the military service, the student continue to education at the beginning of the following academic year.

(4) The students who are representing the University for scientific, social, cultural and sports activities or competitions, are considered to be officially excused by the decision of the university senate. These students are subjected to take to remedial exam for the courses that they were not able to attend due to above reasons.

(5) The students who are taking the time to go to domestic or international institutions for clerkship, research, or observership with our without a financial support from the university, can be excused up to two years. The application for such inquiries should be done at the beginning of the year within the time of the course selection. The students still are obligated to pay the full tuition.

(6) The students who are out of the education based on a permission, can continue the education at the end of legal permission time by renewing their registration. If they succeed the preparation year exams at the end of the first semester, they are permittted to take the spring semester and they continue their education at the new academic year.

(7) If a student develops a new health problem during the education, he/she has to bring an official report from one of the Medipol University Hospital or affiliated hospitals or from any other hospital if there is a

holiday. The report should be presented to to the health, culture and sports division of the University within five days of the exams for approval. Once the health reports is approved and submitted to Dean’s Office, the student’s status is discussed and decision is made by the faculty executive committee. The students whose health reports are valid, can take remedial exams. Any other health reports without any approval by the University health, sports and culture department will not be processed. The students cannot take courses or exams during the time that they are considered to be excused due to health reasons.

SECTION-5

Scoring system, rankings, degrees and lowest correct answer threshold “baraj”

Provisions on First-, Second- and Third-Year Students

Course Committee Pass Grade

ARTICLE 23 – (1) The weighted course committee grades shall be calculated with each of the scores obtained by the student from course committees multiplied by ECTS value of the related course committee. The "course committee grade point average" shall be calculated through the sum of weighted course committee grades divided by total ECTS values.

(2) Students having a course committee grade point average of 75 and higher shall be considered exempt from the course committee general examination. The point of 74.45 and higher shall be rounded up to 75. Any student having the intention of taking this examination to increase their grade point average shall notify the Dean's Office of this intention at least seven days prior to examination date and represent that they waive the right of exemption.

The student should have a minimum point of 50 out of full 100 points in the course committee general examination.

(3) For those students having a Course Committee Grade Point Average below 75 (students going to general exam or make up exam), the sum of 60% of the course committee grade point average and 40% of the score obtained from the course committee general examination (or make up examination) shall be considered "Course Committee Pass Grade”).

(4) The pass grade in non-committee courses and elective courses shall be calculated assessing 40% of the score obtained from mid-term examinations or activities substituting for mid-term examination and 60% of the score obtained from the general examination together.

Make-up Examination

ARTICLE 24 – (1) It is the examination conducted for those students having a course committee passing score below 60 at the general exam and the result of which supersedes the course committee general examination score.

(2) It is the examination conducted for those students who fail non-committee courses and elective courses, the result of which supersedes the general examination score.

(3) Any student, who discretionally takes a make-up examination to have a higher score despite having passed the related course, is deemed to have waived the general examination score attained by the same.

Lowest Limit threshold (Baraj)

ARTICLE 25-(1). There is the rule of lowest limit threshold at the course committee exams. If a students gets a score of below % of one or more courses at a committee exam, the difference of the score and % 50 of total score of the course is deducted from his/her total course score. **This rule is not applied at the end year general exam and make up exams.**

(2) If a question is canceled for any reason, the scores obtained through any canceled questions shall be excluded from assessment, and assessment shall be carried out by recalculating unit points for questions assessed.

SECTION 6

Passing an Academic Year

Provisions related to 1st 2 nd and 3 rd year Students

ARTICLE 26 – (1) Education shall be carried out based on passing an academic year during years 1, 2 and 3. Passing an academic year shall be based on the "Course Committee Pass Grade". The Course Committee Pass Grade for passing an academic year must be a minimum of 60.

(2) The course committee pass grade obtained by those students having a course committee grade point average of 75 and higher shall be the former.

Repeating an Academic Year

ARTICLE 27 – (1) The student shall repeat the related academic year under the following circumstances:

a) Those who fail to take the course committee general examination and/or make-up examination.

- b) Those who obtain a score below 50 from the course committee general examination and/or any make-up examination,
- c) Those with a "Course Committee Pass Grade" below 60, and
- d) Those who fail to take the course committee general examination and make-up examination due to absenteeism.

SECTION 7

Provisions on Fourth- and Fifth-Year Students

Clerkship Examination and Grade Point

ARTICLE 28 – (1) The examination held on a theoretical-applied basis at the end of each clerkship program during years 4 and 5 is called "clerkship examination". Examination may be written and/or oral. The pass grade is 60 out of 100. Those students who are absent from clerkship by over 20% shall not be allowed to take any clerkship examination. The student shall be subjected to a make-up exam in failed clerkship program(s) on a date set in the academic calendar; those who fail this test and those who fail due to absenteeism shall repeat clerkship program(s) failed.

Academic year Pass Grade

ARTICLE 29 – (1) The status of the students who passed all the clerkship exams will be determined by the relevant coordinators based of the parameters and point contribution levels.

SECTION 8

Provisions on Internship/Sixth-Year Students

ARTICLE 30 – (1) Sixth-year students' achievement in clerkship shall be assessed by the faculty member, assigned by the related Department Head Office, in consideration of clinical (in bed patient care), polyclinical (outpatient clinics), laboratory and field studies; call duty and night shifts; patient folders prepared; relations with patients, patient care, physicians and students from other vocational branches; and training sessions attended. The pass grade for internship is 60 out of 100. Those who fail due to absenteeism shall repeat clerkship program(s) failed.

Associate, Undergraduate, and Doctor of Medicine Degrees and Medical Education Graduation Grade

ARTICLE 31 – (1) The following diplomas shall be awarded by the International School of Medicine:

- a) Those who drop out of the university without completing six-year medical education for any reason after successfully completing their first- and second-year education at the International School of Medicine shall be awarded an "Associate Degree in Basic Medical Sciences" under "Regulation on Eligibility for Associate Degree or Placement at Vocational Schools for Those Failing or Unable to Complete Their Undergraduate Studies" published in Official Gazette No. 20112 dated 3.18.1989 upon the Executive Committee's resolution. CGPA obtained at the end of second year shall be indicated as "ASSOCIATE CGPA" in the transcript awarded at the end of this educational period.
- b)
- b) Those who drop out of the university without completing six-year medical education for any reason or file a request, while continuing their education, after successfully completing their first-, second-, third- and fourth-year education at the International School of Medicine shall be awarded a "Bachelor Degree in Medicine" upon the Executive Committee's resolution. Our students who are awarded this degree shall be eligible to apply for graduate programs opened up, if they meet essential requirements. CGPA obtained at the end of fourth year shall be indicated as "GRADUATE CGPA" in the transcript awarded at the end of this educational period.
- c) Those who successfully complete the projected six-year educational period for a medical doctorate program shall be awarded a "Doctor of Medicine Diploma". CGPA obtained at the end of six-year education shall be indicated as "MEDICAL EDUCATION GRADUATION CGPA" in the related transcript.

SECTION 9

Miscellaneous articles

ARTICLE 32 - (1) In cases not provided herein, the provisions of Istanbul Medipol University Associate and Undergraduate Education Regulations and any other applicable legislation and the resolutions adopted by the Executive Committee and Senate shall apply.

Inactivation

ARTICLE 33 – (1) With the activation of this regulation, the previous regulation of ‘‘The Education, Teaching and examination regulation’’ which was accepted by the Medipol University Senate (date: 16.12.2014 and ID: 2014/ 35-06) becomes inactive.

Effectiveness

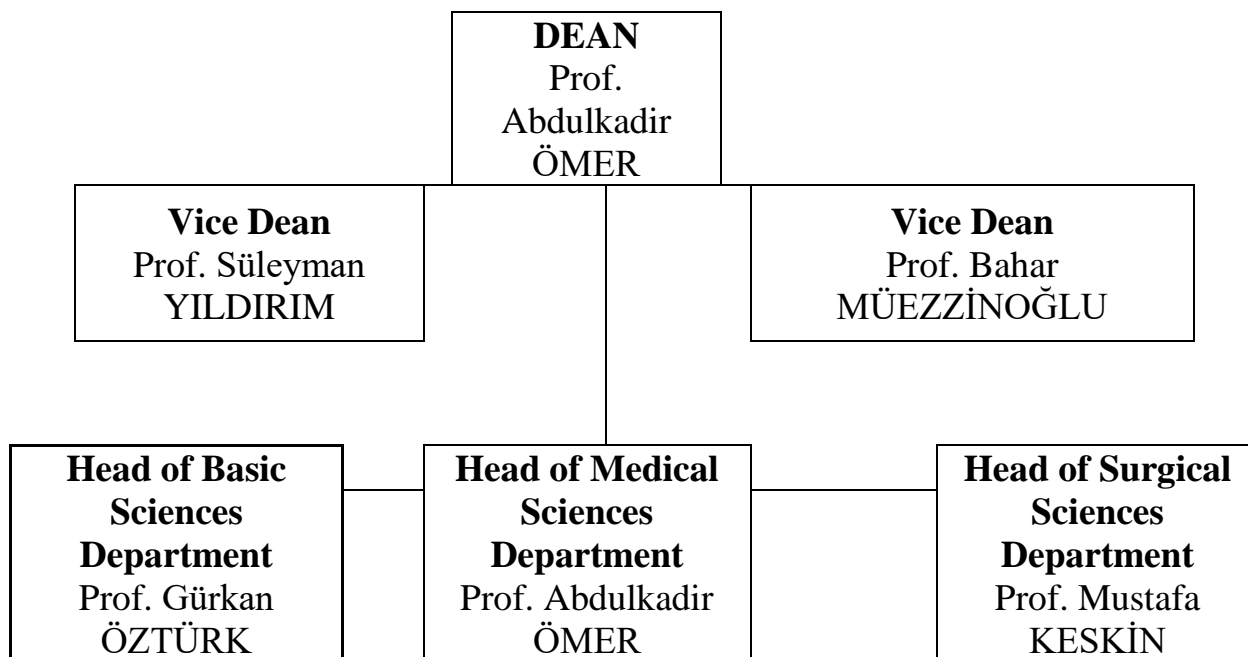

ARTICLE 34 – (1) These regulations shall become effective from 2014-2015 academic year.

Enforcement

ARTICLE 26 – (1) The provisions hereof shall be enforced by the Dean of International School of Medicine of Istanbul Medipol University.

* Approved by our University Senate resolution no. 2019/07-02 dated 03.07.2019.
