

Erasmus+ KA131 Study and Traineeship Mobility Project 2026-2027 Grant Results Announcement

1. Grant Allocation and Placement Process

Under the Erasmus+ Programme, the grants allocated to our University have been distributed among faculties, institutes, and vocational schools within the quotas through the Erasmus Commission established by our Rectorate. In the allocation of quotas for study grants, the amount of grant allocated to our university, the number of students who applied and passed the selection threshold, the number of existing Erasmus bilateral agreements of the relevant department, and the priorities of our university were taken into consideration. For traineeship grants, the allocation was carried out based on the students' academic achievement ranking within the faculty. In this way, it was aimed to ensure that the grants were distributed fairly, proportionally, and in accordance with the objectives of the programme. Students were ranked according to their scores and listed as primary and reserve candidates, starting with the candidates who received the highest scores within the allocated quotas.

In the event that there are no applications from the relevant department within a faculty, or if the primary and reserve candidates waive their rights, the grant will first be transferred to the highest-scoring student from the same faculty who is not included in the grant allocation list. If there is no such student, the grant will be transferred to the highest-scoring student from other faculties, in line with the priorities determined by the Erasmus Commission.

2. Conditions for Signing the Contract and Commencing the Activity

- All students entitled to grant-supported or zero-grant (non-funded) mobility must sign a grant agreement before starting the activity.
- A student who is selected within a contract period but does not carry out the mobility cannot be included in the scope of the grant agreement for the following contract period on the grounds of an "acquired right." Students may carry out their mobility activity by being selected for each contract period in accordance with the selection criteria applicable during the relevant contract period.

3. Grant Payment Process

First Payment: Within 30 calendar days from the signing of the grant agreement with the student who will undertake a study or traineeship mobility, the first payment, amounting to 80% of the grant, will be transferred to the student's personal bank account.

Second Payment: Within 45 days after the student has fulfilled all their obligations following their return, the remaining 20% payment will be transferred to the student's account. In order for the second payment to be made, the student must submit all relevant documents (certificate of participation, transcript of records, copies of passport entry and exit stamps, etc.) in full.

Refund Conditions

- **Academic Failure:** A 20% deduction will be made from the grant of a student who fails in 80% of the courses taken, based on credits.
- **Non-Completion of the Participant Survey:** Students are required to complete a participant survey (EU Survey) using the link sent to their student e-mail address after completing their Erasmus mobility. A deduction of 20% is applied to students who fail to complete the participant survey for reasons other than technical ones.
- **Failure to Submit Documents:** If the documents proving participation in the mobility (certificate of participation, transcript of records, copies of passport entry and exit stamps, etc.) are not submitted, the mobility will be considered invalid, and the grant already paid will be reclaimed.

5. Nature of the Grant

Grant support is provided to students in order to cover part of the expenses arising from being abroad during the period of their activity abroad. The grants are not intended to cover the entirety of the students' expenses related to the activity; they are of a contributory nature. The countries in which student mobility activities may be carried out have been divided by the European Union into three groups according to their cost-of-living levels, and study and traineeship grants have been determined for the country groups. The country groups determined by the European Union and the monthly grant amounts to be paid to students travelling to these countries are shown in the tables below:

Country Groups	Host Country	Monthly Study Grant (EUR)	Monthly Traineeship Grant (EUR)
Group 1 and 2 Countries	Germany, Austria, Belgium, Czechia, Denmark, Estonia, Finland, France, the area administered by the Greek Cypriot Government of Southern Cyprus, the Netherlands, Ireland, Spain, Sweden, Italy, Iceland, Latvia, Liechtenstein, Luxembourg, Malta, Norway, Portugal, Slovakia, Slovenia, Greece	600	750
Group 3 Countries	Bulgaria, Croatia, North Macedonia, Lithuania, Hungary, Poland, Romania, Serbia, Türkiye	450	600

Students travelling to countries not associated with the Programme, participants in Blended Intensive Programmes, and students who will carry out Short-Term Doctoral Mobility are evaluated separately. Participants with limited means, provided that they document their situation, shall be provided with additional grant support on top of the grant to which they are entitled. The individual support grant amounts to be applied are calculated on an estimated basis before the students' activity periods begin. Following the completion of the activity, the final grant amount shall be determined in accordance with the actual durations realised.

In order to contribute to students' travel expenses, travel grant support shall be provided using the table below, based on the distance in kilometres between the starting point of the mobility and the place where the activity is carried out, as calculated via the distance calculator provided by the European Commission:

Travel Distance	Standard Travel Grant Amount (EUR)	Green Travel Grant Amount (EUR)
Between 10 and 99 KM	28	56
Between 100 and 499 KM	211	285
Between 500 and 1999 KM	309	417
Between 2000 and 2999 KM	395	535
Between 3000 and 3999 KM	580	785
Between 4000 and 7999 KM	1188	1188
8000 KM or more	1735	1735

Green travel is travel carried out using low-carbon-emission means of public transport. The use of buses, trains, and shared cars falls within the scope of green travel. In order to receive green travel support, green travel must be used on both the outward and return journeys, and the whole, or more than half, of the journey must be carried out using green means of transport.

6. Special Condition for Traineeship Mobility

Students who are awarded a grant for traineeship mobility are required to submit their acceptance letters to the Erasmus Office by **30 November 2026**. Students who fail to submit the required document by this date will be considered to have waived their entitlement, and, if applicable, the grant will be transferred to the reserve candidates.

7. Additional Grant Situation

In the event that additional grant funding is allocated to our university under the **2026 Project**, this grant will be allocated primarily to students who are undertaking mobility as **zero-grant participants**, provided that their mobility activities have not yet been completed.

8. Withdrawal

Students who applied to benefit from Erasmus mobility and who are entitled to mobility, whether with or without a grant, and who wish to withdraw, must complete the withdrawal form below and send it by e-mail to erasmus@medipol.edu.tr by 7 September 2026, 17:00 at the latest. Otherwise, points shall be deducted in the following year's application. For the withdrawal form, please [click here](#).
