1. Students must receive Occupational Safety Training before starting their internship.
2. Students who do not receive Occupational Safety Training will not be able to do an internship; even if they do, their internship will not be counted.
3. Since Occupational Safety Training is valid until graduation, participation in Occupational Safety Training only once is sufficient for consecutive internships.
4. Necessary announcements will be made regarding Occupational Safety Training.
5. A single/same Internship Application Form cannot be submitted for two internships of the same type or for two different types of internships.
6. There must be at least 3 working days between two or more consecutive internships.
7. If Double Major students will be doing internships in both departments they are pursuing, they must submit 2 separate Student Internship Application Forms to the Internship Committee.
